

VLB Token

The Ultimate Blockchain Fuel for the Vehicle Lifecycle Industry

Vehicle Lifecycle Industry: amalgamation of well established industries into a seamless blockchain-based ecosystem

Addressable Market: \$1.8 trillion in combined market size – car sales, spare parts distribution, auto insurance, auto finance, auto repair

Problem: lack of transparency, price inefficiencies, underutilized business opportunities

Vehicle Lifecycle Blockchain (“VLB”) offers solutions and creates the following value for all Vehicle Lifecycle Industry Participants

27 November – 17 December

VLB will be developed and rolled out by CarFix:

Stage 1: rollout to existing 500 repair shops, distributors, insurers & dealers

Stage 2: upon reaching critical mass, decentralization beyond CarFix

CarFix is a rapidly growing transactional platform in the vehicle lifecycle industry supported by major institutional investors: Mail.ru, Solway Group, Kima Ventures, Foresight Capital
